Bone Tumors on YouTube

You tube has revolutionised the information dissemination scenario. From reading text the scenario has now changed of visuals. Medical knowledge dissemination through you tube is started almost from the inception of the website. There are many videos and essential details that are available on the you tube website. The problem is selecting a few and finding time to watch them. The JBST Oncomedia team and gone through you tube and found some interesting videos that we can recommend to our readers. We will also be posting links of these videos on jbstjournal.com too. Let’s see some details of these videos.

1. Pathology of Bone tumors. Essentially meant for postgraduate students, this video gives pictures of true specimens and their description.
   Link: https://www.youtube.com/watch?v=oHfozp2e8zg

2. Bone Tumor Imaging: is a video of powerpoint lecture by Dr K L Verstraete. Although made in 2012, the lecture is quite informative and will help many to update their knowledge about Bone Tumor imaging.
   Link: https://www.youtube.com/watch?v=EsLIUyExEXU

3. KOC Radiology conference: This KOC talk was given by our editorial board member Dr Bhavin Jhankaria in 2014. This is a very thorough update on imaging of bone tumor and delivered in inimitable style of Dr Bhavin. We highly recommend everyone to watch this video.
   Link: https://www.youtube.com/watch?v=g2TGHrYGAvA

4. MSK Imaging bone tumor: Finally we can complete the update on bone imaging by watching this detailed video. Again presented in format of voice over of a powerpoint presentation, this includes a very good visual appeal to the video.

We will be providing reviews of some more youtube resources in the next issue of Oncomedia. Please provide us with your comments, suggestions and criticism for this feature of JBST.

Dr Ashish Gulia & Dr Ashok Shyam compiled the Oncomedia section for this issue of Journal of Bone and Soft Tissue Tumors

Tumor imaging.

Dr. Ashish Gulia MS (Ortho), Mch - Surgical Oncology Fellowship - Musculoskeletal Oncology (TMH - HBNI)
Asst. Professor - Orthopaedic Oncology, Tata Memorial Hospital, Mumbai, India.

Dr Ashok Shyam MS (Ortho)
Indian Orthopaedic Research Group, Thane, India
Sancheti Institute for Orthopaedics & Rehabilitation, Pune, India
**Orthopaedic Powerpoints** is a new presentation of the Orthopaedic Research Group. Although PPT’s are readily available online but many of them are not recent or with mediocre content. At OrthoPowerpoints.com we will assure that best quality of material is published and circulated. The website will feature peer reviewed powerpoints and to begin with includes members by invitation only. Few presentations from the editorial board of JBST are available online. Visit [www.orthopowerpoints.com](http://www.orthopowerpoints.com) for more details.

**IMSOS 2016:** The second Annual conference of Indian Musculoskeletal Oncology Society is planned on 11-13 March 2016 and will be held in Kochi. Visit the website www.imsos2016.org for more details.

**IMSOS – Surgeon’s Training Initiative:** This will be a travelling fellowship open only to IMSOS members allowing them a 6-8 weeks fellowship at a centre of their choosing. Two fellowships per year will be available. Interested readers can join IMSOS and look for further announcements.

Join the OncoMedia Team and keep the interesting news coming through. We invite trainees of all faculties involved in care of bone and soft tissue tumors to become a part of this active and dynamic team. They will be required to search the web and find interesting news and facts (which we will other wise miss) and send it to the editorial board. A short original write up will benecessary for the same. If accepted your news article will be published with your photograph and affiliation. To be a part of OncoMedia please write an email to us at editor.jbst@gmail.com
2nd ANNUAL CONFERENCE OF
INDIAN MUSCULOSKELETAL
ONCOLOGY SOCIETY
11–13 March, 2016
Crown Plaza, Kochi, India

On behalf of Indian Musculoskeletal Oncology Society, the Kerala Orthopaedic Association and the Organising Committee, it is my great pleasure and honour to invite you to Kochi, Kerala for the 2nd Annual Conference of IMSOS, to be held from 11 – 13th March, 2016 at Crown Plaza, Kochi.

This meeting will offer the participants an ideal opportunity to discuss recent advances, likely future developments and potential research avenues, and to exchange scientific ideas and experiences in sarcoma care and specifically in Adult and Paediatric Musculoskeletal Oncology – all within a unique environment.

Kochi, the Queen of the Arabian Sea, offers us a beautiful setting where the commercial hub meets old world charm. Renowned as one of the important as well as the earliest ports in the country, it served as the Gateway to Kerala for traders including the Arabs, British, Chinese, Dutch, Italians and Portuguese.

The Chinese fishing nets that are found only in Kochi outside China, St. Francis Church where Vasco da Gama was buried, the Santa Cruz church built by the Portuguese and raised to the status of a Basilica by Pope John Paul II in 1984, the Jewish Synagogue & Jew Town, the Dutch Palace and Palliparam Fort, the oldest surviving European fort in India built by the Portuguese are testimony to the cultural heritage of Kochi.

Against this backdrop, we hope to conduct IMSOS 2016 which in just its second year is fast becoming a key opportunity for interaction among the various specialities – orthopaedics, pathology, radiology and medical, surgical, paediatric and radiation oncology. It is an excellent opportunity to interact with the thought leaders from leading medical institutions in India and international institutions.

IMSOS 2016 will provide an exciting and diverse scientific programme, covering the full spectrum from educational opportunities to presentations of new and original scientific research. We hope for your participation and presentations to make this a truly collaborative session.

We look forward to welcoming you in Kochi. We are certain that you will greatly enjoy this interaction as well as the Kochi culture, cuisine and hospitality.

Dr. Subin Sugath
Organising Secretary
