Editorial IMSOS Issue January - April 2020

We are pleased to bring you the IMSOS issue for 2020. JBST is the official publication of the Indian musculoskeletal oncology society (IMSOS). This is the second consecutive year that we are publishing a special IMSOS issue, which typically coincides with the IMSOS annual conference in early March.

Since the last year, JBST editorial board has 2 IMSOS life members selected as IMSOS representatives. Dr. Akshay Tiwari and Dr. Dominic Putthoor are the current IMSOS representatives on the JBST editorial board. Both have a vast experience of treating bone and soft tissue tumors and bring along considerable credibility to the work published in the issue.

IMSOS annual conference this year is being held at Bengaluru. The organising secretary Dr. Suman Byregowda and his team have put up an exceptional scientific program. The current IMSOS issue being released online to coincide with the annual conference promises to add to the academic value that IMSOS had aimed at. The conference is being held on the background of the Covid 19 scare that is looking to grip India. Hopefully the great academic content, warm hospitality and gracious hosts will not let the scare dampen the fervor and camaraderie.

JBST wishes IMSOS 2020 the very best.
