

We are pleased to inform you that Shrimann superspeciality hospital hosted ORTHOPAEDIC-RADIOLOGY AND PATHOLOGY WORKSHOP ON BONE TUMORS at Ramada Jalandhar City Centre on 15th December 2019 (Sunday)

Introduction

The conference was organized under the aegis of Jalandhar Orthopaedic Association, Punjab Orthopaedic Association and Indian Musculoskeletal Oncology Society.

The Organizing Secretary of the conference was Dr. R.R.Saggar, Consultant and Head Of Orthopaedics Shrimann Hospital Jalandhar, the Co-Organizing Secretaries of the conference were Dr Sanjay Wadhwa Consultant and Head of Pathology, Shrimann Hospital, Dr. Deepali Marwaha Head of Radiology, Shrimann Hospital, Jalandhar and Dr.Navleen Kaur Associate Consultant Pathology, Shrimann Hospital Jalandhar.

This kind of conference was held for the first time in North India on bone tumors. There were 30 microscopes kept in the hall showing different kinds of tumors on glass slides. It was explained to the delegates how these

bone tumors look like under the microscopes as well as on corresponding x-ray films. This kind of arrangement was done for the first time in North India.

50 different focal bone lesions on imaging were shown in radiology workshop covering various types of bone tumors. Orthopaedic workshop covered various issues related to clinical work up, biopsy, different types of surgical management and their results by all the learned faculty.

Various guest faculty included Dr. Ashish Gulia Professor Of Orthopaedic Oncology Tata Memorial

Dr. Ashish Gulia

Associate Professor TMH Mumbai, Dr. Khushboo from Delhi, Dr. Z.S.Kundu and Dr. Parveen Kundu from PGI Rohtak, Dr. Manish Pruthi And Dr Sunil Pasricha From RGC Delhi, Dr .Sudhir Garg From Chandigarh Medical College and Dr.Navleen Kaur from Jalandhar.

We had over 100 delegates to attend this

Hospital, Mumbai, Dr. Nirmala Jambhekar Ex-Head Of Pathology TMH Mumbai, Dr. Amit Janu Consultant Radiologist and

meeting. We had got post graduate students from Pathology, Radiology and Orthopaedics departments of various medical colleges of Punjab, Chandigarh, Haryana, Jammu and Delhi.

Punjab medical council had given credit hours to the delegates for attending this conference. Many medical students presented posters in this conference. Quiz was also organized for radiology delegates.

An ORP handbook written by Dr.R.R.Saggar and Dr.Sanjay Wadhwa based on diagnosis and differential diagnosis of bone tumors was also launched in this workshop, showing cases collected by them In the last decade of their own clinical practice, which was very well appreciated by all faculty members and delegates.
